

SANTANA KIANA WINARTA

NOC Engineer • CCNA CyberOps Certified • Network Support & Monitoring

Certified: Cisco CCNA CyberOps (2023) | GPA: 3.79 / 4.00

Location: Bali, Indonesia | Phone: +62 813-1380-691 | Email: santanakiana0402@gmail.com | LinkedIn: linkedin.com/in/santanakiana-winarta04

PROFESSIONAL SUMMARY

Detail-oriented NOC Engineer with a B.S. in Telecommunications Engineering (GPA: 3.79/4.00) and Cisco CCNA CyberOps certification. Proven experience maintaining high network availability, handling 50+ monthly SD-WAN & branch infrastructure incidents within strict SLA targets using command-line diagnostic tools (Ping, Tracert, PuTTY). Skilled in L1/L2 escalation, TCP/IP routing, and coordinating field dispatches for SD-WAN, CCTV, and NVR networks.

CORE COMPETENCIES & TECHNICAL SKILLS

NOC Operations & Management: Incident Handling & Escalation, Work Order / Ticketing Management, SLA Tracking, Event Logging, Network Monitoring, Operational Reporting, Field Engineer Dispatch.

Networking & Security: SD-WAN Architecture, Multi-WAN Failover, TCP/IP, IPv4 Subnetting, Gateway, DNS, ARP, RIP Routing Protocols, Network Security Fundamentals, Router Configuration (PuTTY).

Infrastructure & Hardware: Routers, Switches, SD-WAN Edge Devices, NVR/CCTV Systems, UPS Backup Infrastructure, Fiber Optics (FTTH), NTP Server Synchronization.

Tools & Utilities: Command Line Diagnostic Tools (Ping, Tracert, PuTTY), Python, AutoCAD, Microsoft Excel, Google Sheets, Windows Environment.

PROFESSIONAL EXPERIENCE

IBINET Global Nusatindo

Bali, Indonesia | Dec 2025 – Present

Help Desk Specialist (NOC L1/Network Support) - Contract

- Monitored 100% daily SD-WAN edge device status & multi-WAN link failovers across corporate branches using command-line tools (Ping, Tracert, PuTTY) to isolate L1 routing issues and prevent service downtime.
- Resolved 50+ monthly L1 network & CCTV/NVR incidents within strict SLA targets by managing end-to-end ticketing work orders and dispatching field engineers for hardware/power replacement.
- Performed L1 remote provisioning, network parameter validation (IP, Gateway, Subnetting), and NTP server synchronization (id.pool.ntp.org) to ensure standard configuration compliance across branch hardware.
- Executed corrective & preventative maintenance (CM/PM) for network switches, UPS backup systems, and recording servers.
- Maintained precise technical incident logs, service audit documentation, and daily operational reports for NOC leadership review.

PT INTI PINDAD MITRA SEJATI (IPMS)

Bandung, West Java, Indonesia | Jul 2023 – Aug 2023

Sales Engineer Intern

- Designed 10+ fiber-optic cable layouts (FTTH) and CCTV network topologies using AutoCAD to meet project technical specifications and deployment standards.
- Compiled accurate Budget Estimates (RAB) and technical schematics for network infrastructure and solar-powered communication systems.
- Authored 10+ comprehensive technical documentation sets and Bill of Materials (BOM/RAB) using AutoCAD for fiber-optic and solar-powered network deployments, reducing field configuration errors and ensuring accurate specification compliance.

PT. TELKOM AKSES

Karawang, Indonesia | Jul 2018 – Oct 2018

Help Desk Specialist Intern

- Provisioned & activated 100+ router Serial Numbers (SN) via PuTTY terminal emulation, ensuring 100% successful initial deployment for 100+ customer FTTH connections in 90 days.
- Managed ticketing work orders for field technicians, tracking customer connectivity issues and maintaining 100% data log accuracy in Microsoft Excel for internal SLA reporting.

TECHNICAL PROJECTS & FIELD EXPERIENCE

- **Branch Network & CCTV Infrastructure Audit:** Conducted long-term log audits for branch network devices, CCTV systems, and NVR storage to ensure continuous recording retention, resolving hard disk errors and restoring offline network assets.
- **Remote Device Provisioning & Network Integration:** Handled remote router configuration, IP addressing, gateway setup, and NTP server alignment to integrate branch devices smoothly into the central network topology.

EDUCATION

Telkom University Bandung, Indonesia | 2020 – 2025

Bachelor's Degree in Telecommunications Engineering

- **GPA:** 3.79 / 4.00 (Relevant Coursework: Computer Networks, Data Communications, Optical Communication Systems)
- **Exchange Program:** Universiti Utara Malaysia (UUM)
- **Leadership:** Treasurer at HMTT — Managed IDR 50M+ event budgets across 5+ departmental programs with zero financial discrepancy.

SMK Telkom Bandung Bandung, Indonesia | May 2017 – May 2020

Diploma in Computer Systems Networking and Telecommunications

- **Grade:** 82.06 / 100
- **Key Academic Role:** Lab Assistant for Optical Communication (Facilitated practical sessions on fiber optics and networking hardware).

LICENSES & CERTIFICATIONS

- **Cisco Certified Network Associate CyberOps (CCNA CyberOps)** – Cisco (Issued Jun 2023)
- **Microsoft Office Specialist: Excel 2013** – Microsoft (Issued Jul 2025 – Exp. Jul 2027)

LANGUAGES

- **Bahasa Indonesia:** Native
- **English:** Professional Working Proficiency (Active in English Club during studies)
